

MAPS AVAILABLE TO PUBLIC

5632

(May 1988)

CDF has several series of resource inventory maps available for sale to the public. These are largely the soil-vegetation maps and the timber stand--vegetation maps produced by the Soil-Vegetation Survey. Other available series are the vegetation-type maps produced by the California Forest and Range Experiment Station of the U.S. Forest Service before 1950; geologic and landslide maps produced by the California Division of Mines and Geology for CDF, upland soils maps, landsat land cover maps and unclassified landsat data, and Weislander vegetation-type maps. Other resource inventory maps will be added as they become available.

PRICES (including sales tax)

5632.1

(May 1988)

Soil-vegetation map with legend (1:31,680)	\$ 2.00
